## Polishing Grinding Recovery Series

8541475

**PGR "IsoFlow"**

[See price here](#)

8541478

**PGR "MixedFlow"**

[See price here](#)

8541479

**PGR "SuperFlow"**

[See price here](#)

Quatro's PGR Series comes in three unique models. The PGR "IsoFlow" separates metals. The PGR "MixedFlow" maximizes your filter bag usage. The PGR "SuperFlow" delivers the best suction power and separates your metals into 3 filter bags.

8542179

## CollectAll Brushless

[See price here](#)

The Quatro CollectAll Brushless is powered by a 1.5 HP high-speed turbine motor for continuous polishing all day long. A three-stage filtration system collects precious metal dust, captures rhodium/soldering fumes, and filters particulate down to 0.3 micron levels.

8541402

## Multi-Station Power 6

[See price here](#)

Quatro's Multi-Station Power 6 is a single unit capable of dust collection from up to 6 workstations. The two-stage filtration captures 99.97% of dust/submicron particles. Ships truck.

# Solutions for Small Spaces

8541357

## Basic with Foot Switch

[See price here](#)

The Quatro Basic with Foot Switch means you don't need to compromise on air quality or recovery in a small workspace. The high-speed turbine motor offers fast collection during grinding, polishing, engraving, and more.

8541541

## GoldVault Extra Infinity

[See price here](#)

The Quatro Gold Vault Extra Infinity was designed to handle dust, debris, particles, odor, and precious metals. A quiet, high-speed turbine motor removes debris efficiently while the new filtration system captures 100% of precious metals.

8541483

## JetStream Tall

[See price here](#)

A 1-1/2 HP brushless motor makes Quatro's JetStream Tall a powerful dust collector with a small footprint. HEPA filters provide 99.97% efficiency on submicron particles.

# Containment Systems & Hoods

## Rhodium Fume Containment Systems

8541371

**Small**

[See price here](#)

8541372

**Large**

[See price here](#)

Quatro's Rhodium Fume Containment Systems use a replaceable charcoal filter to reduce odor and vapor in your workspace. LED lighting provides excellent illumination without warming the work area.

[Small Specs](#) | **Dimensions (DxWxH):** 17.5" x 24" x 29" **Shipping weight:** 78 lbs.

[Large Specs](#) | **Dimensions (DxWxH):** 20" x 29" x 39" **Shipping weight:** 98 lbs.

8542083

## ClearView Hood with LED Lighting

[See price here](#)

Reclaim more precious metal and keep your shop cleaner with Quatro's ClearView Hood. Solid metal construction ensures longevity, and acrylic viewing panels allow a clear view of your work.

[Specs](#) | **Dimensions (DxWxH):** 14.25" x 15.5" x 15" **Shipping weight:** 15 lbs.

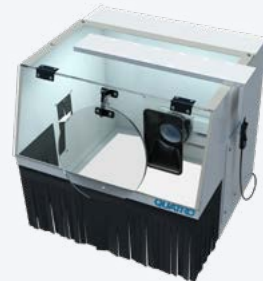

8541481

## ClearView Deluxe with 8" Magnifier, Source Capture Nozzle & ASV

[See price here](#)

The Quatro ClearView Deluxe is a hood made from powder-coated steel with a clear acrylic viewing area and a round 8" hinged magnifier providing 2X magnification when you need it.

[Specs](#) | **Dimensions (DxWxH):** 14.25" x 15.5" x 15" **Shipping weight:** 18 lbs.

# Superior Efficiency for Heavy-Duty Polishing

8542135

## SCS Standup Compact Superflow

[See price here](#)

The Quatro SCS combines a suction unit with two fully enclosed Quatro ClearView Hoods and a double-spindle CoolBlue motor. Energy-efficient LED lights provide excellent illumination without warming your workspace. Ships truck.

[Specs](#) | **Dimensions (DxWxH):** 24" x 38.5" x 50"

## SPU JR Series

8542190

**Standard**

[See price here](#)

8542191

**Superflow**

[See price here](#)

The redesigned SPU JR units have 50% more suction power, 50% more storage capacity, and a 30% larger HEPA filter to capture all of your precious metal dust while keeping your workspace cleaner and healthier than ever before. Ships truck.

[Superflow & Standard Specs](#) | **Dimensions (DxWxH):** 24" x 27" x 46.5"

# For Your Bench

8541474

## Double-Spindle Desktop Polisher (CB-2)

[See price here](#)

The Quatro Double-Spindle Desktop Polisher is a comprehensive solution that captures precious metal dust when you're polishing and purifies the air when you're not. The CoolBlue motor runs quietly and can be offset to allow inside ring buffs up to 6".

## Accessories

8541499

### Workbench Capture Arm

[See price here](#)

Quatro's Workbench Capture Arm mounts directly to your bench to provide concentrated suction in small working areas. Compatible with Quatro Jet Stream Tall, Basic, and GoldVault Extra Infinity.

8541519

### Hose Adapter 1.5" to 3"

[See price here](#)

Attach your Quatro Basic, Jet Stream, or GoldVault dust collector to 3" hoses or hood openings with this heavy-duty plastic adapter.

8541364

### Bench Pin for Vacuum

[See price here](#)

Keep your bench clean and reclaim precious metal dust with Quatro's Bench Pin. Compatible with Quatro Basic, Jet Stream, and GoldVault dust collectors.
